In conclusion may I again express my sincere appreciation for the continued support of the Hampden School Committee in developing and administering school policy and to all school personnel, town officials, town departments and the parents and citizens of Hampden for their cooperation during the past year. Much credit is due the School Building Committee and the School Survey Committee for their outstanding contribution to the welfare of our schools. Free public education is the backbone of our American heritage and the answer to a better world tomorrow.

Respectfully submitted,

KENNETH E. JOHNSON

REPORT OF THE SCHOOL HEALTH DEPARTMENT

The School Physician completed the following examinations during the year assisted by the School Nurse.

School Personnel	33
Pupils, Grades 1, 3, 5, 7.	263
Heart and lungs checked for competitive sports and physical education	197

Five children were referred to their own family physicians for possible defects. A total of 79 children were given physicals by their own family physicians, a practice heartily endorsed by Dr. Keroack. There were 184 examined by Dr. Keroack.

Nine children were vaccinated at the pre-school clinic on May 20th.

Flu shots were administered to the school personnel.

The School Nurse completed eye examinations on 510 pupils with 30 notices sent home, and 510 hearing tests with 27 notices sent home. With the gift of a Bausch and Lomb School Vision Tester from the Lions Club, checking of the children's vision is more accurate and simpler to do.

There was a Polio Clinic in connection with a State-wide program held at the school for all townspeople at which time the School Nurse assisted.

The School Dentist made visits to check the teeth of all the school children in May, June and December. As last year when the dental survey was done, the overall dental needs of the children are being met. Dental referral certificates were sent out last spring and more will be this year.

The kitchen and toilet facilities were inspected at the Junior High and Elementary Schools and found to be adequate and well cared for.

The School Physician feels that the physical condition of the Hampden school children remains generally good. He also reminds all the parents that personal hygiene and cleanliness have a direct bearing on good health. We should not forget this and guide our children accordingly.

We wish to extend our thanks to the Teachers Club for their fine cooperation.

Respectfully submitted,

ALVIN KEROACK, M.D.
DOUGLAS BRYANS, D.M.D.
LILLIAN HAYNES, R.N.

REPORT OF THE HAMPDEN-WILBRAHAM REGIONAL SCHOOL DISTRICT COMMITTEE

The District School Committee, as authorized by the General Laws of Massachusetts, and as established by Town Meeting votes in the Regional Agreement between the Towns of Hampden and Wilbraham, is charged with the responsibility and is assigned the authority for the operation of Minnechaug High School.

In this, our 1964 annual report to the citizens of the District, we record with pride the accomplishments of the pupils in your high school and express our appreciation for your support of our efforts. Since 1956, when this District was organized, the citizens have supported a program of high academic achievement growing out of challenging educational experiences for the students. In 1964, and again in the 1965 budget, the educational program at Minnechaug represents a major financial expenditure for the citizens in Hampden and Wilbraham. Only in studying the record of our students and the financial statements in this report, can you determine how educationally effective and financially efficient has been the stewardship of this committee.

Members of the 1964 graduating class are now engaged as follows:

Four year colleges	59
Two year colleges	12
Three year nursing	3
Practical nursing	1
Technical and vocational schools	11
Employed	20
Military service	9
Married (girls)	2
Status unknown	5
Sisterhood	0
Post graduates	3
Total	125

Combining the first four graduating classes from Minnechaug High School, the following totals develop:

Four year colleges	210
Two year colleges	52
Three year nursing	13
Practical nursing	5
Technical and vocational schools	33
Employed	78
Military service	33
Married (girls)	10
Status unknown	19
Sisterhood	2
Post graduates	5
Total	460

Stating the information tabulated above in another form, your committee reports with pride that 45.6% of the graduates of this high school have been accepted in four-year degree-granting colleges and universities. With 68% of the

graduates enrolled in four-year colleges and universities, two-year colleges, schools of nursing and technical and vocational schools, 17% gainfully employed and 7% in the military services; it is accurate to state that this school is fulfilling its basic purpose of meeting the educational needs of the majority of the pupils in the District. The responsibility for the effective and realistic individual counselling of all pupils in the high school, commencing with entrance into the freshman class and continuing beyond employment and postgraduate educational placement, is assigned to Mr. Charles B. Thompson, Director of Guidance. The committee commends him for the excellent record.

Among the many fine achievements at Minnechaug High School in 1964 must be listed:

1. The first Merit Scholar finalist and the seven pupils cited in the National Merit Scholarship rankings—three as semifinalists in the scholarship qualifying test and four given commendations for their high performance;
2. The continued success in varsity athletics with league and Western Massachusetts championships in basketball, swimming, track, and gymnastics;
3. The Western Massachusetts Music Festival sponsored by the District.

Early in December, the school committee, faculty, students and citizens of the region were excited and pleased to learn that Miss Vivian Little, Chairman of the English Department at Minnechaug High School, had been selected as Teacher of the Year by the Massachusetts Department of Education. This recognition of her professional leadership and contributions to the education of the youths she has guided and influenced is a well-earned tribute to an outstanding person and teacher.

This report and evaluation of the school year must include a commendation of the teaching and administrative staff of the school. Your attention is called to the section of the report which lists personnel employed by the District and shows the level of training and depth of experience for each individual. This is a well-trained and experienced staff, capable of providing the type of instruction needed by our students.

In adjusting the teachers' minimum salary from \$4,800.00 to conform to the revised state minimum salary of \$5,000.00, the committee applied the \$200.00 increase to all steps in the schedule and thus maintained the existing differential between levels of experience and preparation. The increment between steps six and seven was increased from \$200.00 to \$300.00 in recognition of the importance of retaining experienced personnel in the educational program.

Your committee is pleased to report that the construction of the Minnechaug High School addition is on schedule. Occupancy is planned for September, 1965. The 1963 Annual Report explains, in detail, the need for the additional facilities, the proposal for additional classrooms, and the estimated cost of the project.

Construction bids were opened on February 27, 1964, and a project budget of \$754,796.00—\$29,704.00 less than the \$784,500.00 projected in the 1963 report—was adopted. The project attracted extremely competitive bidding and a high degree of interest. Offsetting credits, consisting of transfers and state planning reimbursements totaling \$79,796.00, reduced the borrowing requirements to \$675,000.00. At the Annual Town Meetings in March, 1964, authorization to borrow \$675,000.00 was voted. On April 9, 1964, the committee signed the construction contract with the Ciocca Construction Company.

At the meeting on July 3, 1964, the committee sold the bonds for the project at a three percent interest rate with repayment of principal scheduled on a ten-year basis—a savings in interest over the more conventional twenty-year plan of \$101,250.00.

The opening of the addition will eliminate the present overcrowded conditions. Based upon present pupil-growth projections and a continuation of the present scheduling of academic classes, the new facility will be filled to capacity with grades nine through twelve by 1970 or 1971.

Following a year of investigating and studying methods to improve the efficiency of the business office, the committee approved the installation of data processing equipment. While still on a trial basis, the achievements with this equipment have been impressive. The budget, bookkeeping—in accordance with state and federal requirements of reporting—payrolls, and personnel records are all now handled with greater efficiency by this equipment. Pupil accounting for all of the schools in the District and the annual school census have been converted to punched cards; and more accurate records and greatly increased speed in reporting is apparent. Preliminary details for pupil scheduling and report cards are being organized for utilization next year.

One challenging potential for additional use of the data processing installation exists in providing instructional opportunities for some of our pupils. Because such an application departs from the traditional business education program, initiative and imagination will be necessary to work out a realistic and practical course of study. Your committee hopes that the introduction of a student training program in the use of this equipment can be recorded in the 1965 annual report.

The District Committee has been represented at meetings of the Hampden and the Wilbraham School Survey Committees, where the explosive increase in the pupil population of the District has been studied.

The committee again wishes to report its satisfaction with the educational and supporting staff for the hard work, continued efforts and daily accomplishments in improving the academic program and maintaining the high level of business management and facilities maintenance.

Your school committee appreciates the support and assistance of the citizens and the elected and appointed officials of Hampden and Wilbraham. It is a challenging and rewarding opportunity to serve the community as school committee members.
