PROCEDURE FOR OBTAINING A BUILDING PERMIT

The following is an outline of the steps that must be taken in order to secure a building permit, including the necessary supplementary permits or approvals, as may be required. The Board of Selectmen hopes that this procedure will eliminate confusion which might otherwise arise. Specific questions or a more indepth review of a particular department's requirements may be discussed with each inspector.

1. Application to Building Department

Complete the building permit application and submit to the Building Inspector with 2 sets of site plans prepared by a professional engineer or Registered Land Surveyor, along with the application fee, as required by Zoning Bylaw 8.1.3. If you have questions, contact:

Al Laplante: 566-2204

2. Planning Board

The application and plot plan will be submitted to the Planning Board. Petitioner will verify that this is a registered lot, with the proposed building meeting all zoning requirements (which may include application to the Ridgeline & Hillside Committee - Zoning Bylaw 7.12). Contact the clerk to be placed on the agenda of the next meeting:

Judy Jackson: 566-8591 (Home phone)

3. Highway Department

If the driveway requires the crossing of an open ditch, contact the Highway Superintendent for sizing and proper installation of the cuivert. When any new driveway is installed (entering off of a paved roadway), the builder will be required to pave an apron from the edge of the pavement back to the front property line (usually 7-10 feet) at the driveway entrance. If you have questions, contact:

Dana Pixley: 566-8842

4. Conservation Commission

Verify with this Board if you are near or part of your property is in or near the Wetlands Area. If you have questions contact the clerk:

Pat Smith: 566-2206

5. Percolation Test

Test dates are March 1st to May 15th. The Owner/Engineer arranges appointment for percolation with the Board of Health Agent and pays fee. Percolation test is valid for two (2) years from date of issue.

6. Weil Permit

Well installer submits to the Board of Health a permit and plan of property with well, septic system and house shown, at the time of application and with the permit fee.

7. Well Installation

After the well is installed, the installer must file a Well Water Completion report with the Board of Health. Property owner must then have the water tested, with results sent to the Board of Health before a building permit will be issued.

8. Septic Application

Engineer must submit septic design application to the Board of Health, signed, stamped and with the fee paid. A septic permit which is approved shall expire two years from the date of Issue unless construction of the approved system is begun before the expiration date.

9. Septic Installation

Septic Installer must be licensed by the Town of Hampden and must advise Board of Health before installation starts. Installation must be inspected by Board of Health Agent and Design Engineer before system is covered.

10. Septic Compliance

Engineer and installer must sign Certificate of Compliance after the final inspection.

11. Building Department

Building plans must be submitted for review by the Building Inspector. A building permit will not be issued until all prior steps have been successfully gone through. The permit is valid for three (3) years from date of issue. Construction work must begin within six months of receiving building permit, and work must be finished within three years. If you have questions contact:

Al LaPlanto: 566-2204

12. Electrical, Plumbing, Gas and Oil Burner Permits

Requests for the above permits are to be submitted to the Building Department, with the necessary Building Permit fee. The applicant contacts the appropriate inspector with the inspection request. An Occupancy permit will be issued only after the Building Inspector checks with other inspectors to make sure all the above procedures have been completed, as well as insuring that the house number is permanently found on the property and easily readable from the street.

Fees are shown on the reverse side. If you have questions, or if the Board of Selectmen may be of service, please contact us at the Town House, 566-2151

ALL FEES ARE PAYABLE TO THE TOWN OF HAMPDEN

1-16-92 Rev. 4

Total Voters: 2691 In attendance: 298 voters

Minutes: ANNUAL TOWN MEETING April 29, 1991 In a

Moderator, Richard Patullo, opened the meeting at 8:05 PM.

Motion was made, duly seconded and passed by acclamation, the following:

The Town of Hampden on the occasion of its Annual Town
Meeting wishes to express its gratitude for the many
years of service by our Representative in the Assembly,
Iris Holland, in our behalf. We are saddened by her
illness, but want to take this opportunity to tell
her that we fervently hope for her complete recovery.

Annual Meeting recessed: 8:22 PM

Reconvened: 8:44 PM

Article 1. The Town voted that the Annual Reports, as contained in the Annual Town Report for the year 1990 be accepted as printed.

Article 2. The Town voted that the sums of money shown in the column entitled Fiscal 1992, as amended, Recommended of the Supplementary Report and Recommendations of the Hampden Advisory Committee be granted and appropriated for the specific purposes designated and that the same be expended only for such purposes. Each number being considered a separate appropriation and that the Town raise and appropriate such sums as may be required to defray said charges for the Fiscal Year ending June 30, 1992.
